The Tucson Society of the AIA invites you to join us for a most stimulating program of talks this fall. All members, friends and guests are warmly welcomed to the lectures and to the receptions following each talk. Please note that there is some variation as to the day of the week, the times and the locations for the talks. For those coming from off campus, the closest parking garage for CESL and Harvill is the one on Second Street, between Mountain and Highland. If you need additional information about our program, AIA membership, or directions to the buildings, please contact Alison Futrell at the above phone number or via email at [afutrell@u.arizona.edu](mailto:afutrell@u.arizona.edu). We also want to let you know that Dr. Hasaki has now completed the reconstruction of the ancient Greek kiln, using the funds awarded her as the very first recipient of the AIA Local Society Incentive Grant. For more information about your local AIA, and photos of the kiln in action, visit our website at <http://aiatucson.org/>. Our website is maintained by Joey Williams.
