The Tucson Society of the AIA invites you to join us for a zesty program of talks to put a real liveliness into burgeoning spring. This season we are pleased to join the Arizona Center for Judaic Studies in sponsoring an illustrious dyad of speakers. We are likewise honored to host John Oleson, the AIA's Norton Lecturer this year. We invite all AIA members, friends and guests to come to the illustrated lectures and linger afterward for sparkling archaeological chitchat and succulent morsels at the receptions following each presentation. For those coming from off campus, the closest parking garage for the Harvill Building is on Second Street, between Mountain and Highland, next to the Student Union. Parking for the Main Library is at the Cherry Avenue Garage, on Cherry south of University. For Family & Consumer Studies, closest parking is the garage on Tyndall. For updates on events, locations and AIA membership, please contact Alison Futrell at 520-626-8428 or via email at afutrell@u.arizona.edu. For more information about your local AIA, and dazzling action photos of AIA Tucson's reconstructed ancient Greek kiln, visit our website at <http://aiatucson.arizona.edu/>. Many thanks to the AIA, the Arizona Center for Judaic Studies and the Department of History for their support.
